To whom it may concern:

We hired Mr. Luca Arizzi to assist us in decreasing the cost of food and labor costs in the resort restaurant. Luca exceeded our expectations; he is a very detailed and hard working consultant. By following his recommendations, we saw results within 30 days, our cost of food dropped 6% points and labor cost dropped 20% points.

Beyond the plate cost analysis , the portion control recommendations and schedule reductions recommendations Luca acts and behaves in a very professional manner, his demeanor is appropriate with management and employees.

Another point worth mentioning is that he is not afraid to express his opinion as to the changes that are necessary to improve the operations. Finally, his fees are very reasonable thus we are going to experience an ROI of 60 days.

Please feel free to call me if you have any questions.
