Arizzi Business Consulting  
3899 Haines Street  
San Diego, CA, 92109

To Whom It May Concern:

Arizzi Business Consulting was called in to analyze our business and productivity and to help us improving the way we run it. They helped us to increase overall profitability and performance of our employees.

Arizzi's work included breakeven analysis, food control procedures, labor scheduling, plate costing and portion control, inventory control, a flash report and job descriptions.

Recommendations for cost savings amounted to about \$60,000 per year.

At the beginning, we were reluctant to invest in this service, but we are really happy we did it, since the cost is minimal compared to the actual annual saving we had. Luca Arizzi will continue to monitor our improvements and work on our new projects, including the opening of our new restaurant in 2008. We do recommend Arizzi to any business owner in the industry and we will be glad to be available for any feed back you may need.

Sincerely,

Roberta Ruffini  
*President*
